VOL. 1 NO. 5

FRIDAY, MAR. 4, 1966

Last week, we scrounged around and managed to accumulate enough material to expand to four pages. Everyone seemed to like it, but what happened? How can we continue to grow if YOU don't give the news to our reporters. So, here we are back to two pages. Want more? Give with the news.

The WILLIAM McTAGUE, Jr., who made the news by establishing a record of 70 hours of continuous broadcasting last weekend over WVBC in Boston is not only the son of Corporate Officer WILLIAM E. McTAGUE, but also worked here at Bradley in the Assembly Department last summer.

Retiree WALT KRYZNOWSKI, who worked here in D/35 for so many years, and his wife, LAURA, celebrated their 48th anniversary last month.

DENZEL PAINTER, D/35, leaves Sunday to go into the Army Reserve for the next six months.

Ever wonder why we keep preaching to work safely? In the 1965 year, we worked a total of 1,670,294 man hours, and had the misfortune of 31 lost time accidents, and this amounted to 375 days of lost time for the injured. So far this year, we have had two such injuries in January, and only one in February. While this is an improvement, let's make it ZERO from now on. So what? So work safely - so that YOU won't be the next bit of statistics on the wrong side of the "safety ledger."

NEW EQUIPMENT #4 Picture in right hand column

To say the least, there are a lot of "holes" in each gear case half. This Custom made machine is a Rehberg-Jacobson Automatic Boring Machine, which "takes care of" many of those holes. Seventy-five thousand of those good old US dollars are wrapped up in this piece of equipment. Supervisor PAUL LEGRIS looks on as BEN CREMER "puts the machine thru its paces". Inspector JOHN HUDSON stands by to give approval to the finished part.

ALLIE'S ALLEY By JERRY ALLIE

TOM MORIARTY, who is making quite a splash in the sports headlines at Eastern Illinois for his basketball feats, worked here during the past several summers. He is also considered Eastern's top pitching prospect for the coming baseball season.

Yours truly got tired of hearing "JAY HOOK" and "SCRAP" brag about their bowling, so we decided to "cut loose" for a change. Got the week's high game, 222, and high series, 615.

In the Gal's League, a 161 game and a 432 series gets JEAN PANGLE'S name in the paper again. DIANE McCLURE picked up a 3-7-10 split, and appeared real nonchalant about it all.

NICK GINERIS managed to get in a ditch on his way to the Mt. Prospect tournament the other night, but escaped unhurt. The games were delayed about an hour, awaiting our boy. In an article about this incident, the Chi American describes NICK as "one of the most respected prep cage officials in the state" to which we say Amen!

One of these days the Cub fans are about to become aware of the fact that not only is the Sports Editor a Sox fan, but that also the Editor is "Anti-Cub". Wait till baseball season gets here.

Budgies talk, canaries sing,
And starlings hold conventions;
Robins bring the signs of
spring
And storks bring tax exemptions.
