"DO IT RIGHT"

By Nick L. Gineris

In an effort to dramatically advertise the high cost of our "Scrap & Rework", we shall periodically publish some "examples" of same through our plant newspaper.

For this weeks "example" we have selected a container of "scrap" which consists of one (1) weeks accumulation of machined parts from Dept. 25.

This container of scrap consists of 1082 pcs. These 1082 pcs. are made up of 25 different part numbers. The total cost of these 1082 pcs. of scrap equals \$889.39.

It must be understood that these parts were scrapped for various reasons; some were turned undersize; some had the centers out of tolerance; some grooves were too deep; some had the bore oversize; and etc.

This scrap cost of \$889.39 is equivalent to the pay of approximately six (6) employees for one (1) weeks work.

DO IT RIGHT THE FIRST TIME

Our best wishes for a speedy recovery go to JOE LECLAIR, D/70F, NICK FELLERS, Supvr. D/15, CLARENCE BUCK D/25 all of whom are currently in the hospital.

During the past several weeks there have been four pairs of prescription glasses found in the plant and turned in to the Personnel Office. We ask any employees who have lost glasses to stop at Personnel and see if theirs may have been found.

Every season a certain county fair in Missouri attracts people from far and wide. A farmer from up in the valley attended the fair particularly because he wanted to see the grand champion bull. And he brought his whole family.

When he arrived at the entrance, he found that he and his wife and the two eldest children would have to pay fifty cents each and the other ten children twenty-five cents. Being a cattle-minded man, he kicked like a steer. The manager was going by and asked what was the matter. Said the farmer:

"Me and the wife and the children have traveled nigh on to 200 miles to see that champion bull, but I'm danged if I can afford to pay \$4.50 to get in."

"Are all those children yours?" the manager asked.

"They certainly are," said the farmer.

"Let 'em in free," the manager instructed the gate-keeper. Then, turning to the farmer, he said, "We want that bull to see you."

Don't hesitate to flatter others—your opinion of them won't equal their own, anyway.

ALWAYS GET FIRST AID

Get prompt medical treatment for injuries that you think are unimportant: small cuts, blisters, splinters, burns or something in eye.

OLD TIMER

HENRY REITMEIER started as an electrician at Bradley on June 7, 1937 and is one of the few old timers to have spent all his time in the same department. In 1953, he went into Supervision and is now Maintenance Foreman in charge of electricians. His authority also includes janitors and guards.

HANK took time off to serve his country during World War II serving 30 months in the Airborne Engineers. This was a special group attached to the 101st Airborne Division and did it's flying by glider. HANK did his foreign service in England, France, and Germany, and was all set for a transfer to the Pacific when the war ended over there.

We were amazed to hear from HANK that he is a bachelor and immediately offered our assistance through the newspaper to help him find a mate. However, he told us he would just as soon spend it himself.

This fine Old Timer likes to fish and hunt and for years has bowled regularly in the Roper League.

NEW PLANT EMPLOYEES

JAMES TROST, DENNIS ODE, FRANCIS TROST, THOMAS LAFOND, PAUL RIGGS, WILLIAM MIKE, LEO WELLS, ALVIN ROBBINS, DARRELL NELSON, DENNIS DAVIS and THOMAS WALTERS.

FOR SALE: Barber Chair. Best Offer. Call 933-4238.

Sign outside nudist camp: Come on in where the peeling is mutual.

An old Indian chief was on his first visit to a city and wandered into the lobby of a skyscraper. Just then he saw an elderly woman step into a small room with a sliding door. A light flashed, the door closed and she was gone. A few minutes later, the light flashed again, the door opened and out stepped a beautiful blonde. "Ugh," muttered the old chief to himself, "should have brought squaw."
