Also to THOMAS LAFOND D/35 and CYNTHIA CORDES who were married June 1.

In order to continue the good work already started, a Steering Committee under the chairmanship of NICK GINERIS has been formed.

Its purpose to help reduce scrap and rework to the absolute minimum. This committee is meeting weekly to discover ways and means to keep the employees "quality conscious".

"I knew it wouldn't last."

DALE WOODCOCK D/25 returned this week after two years leave spent in the Service of his country. Glad to have you back, DALE.

OLD TIMER OF THE WEEK

FRANK CAVENDER, this weeks Old Timer came to work here on June 6, 1939. His first, and almost his only assignment was in the Machine Shop. During the Korean War he worked in the Continental Motors Division, returning to the Machine Shop when that work was completed. After 28 years of battling the machine FRANK made a big decision, decided it was too hard on the nerves, and transferred to Maintenance in April of 1967. His work now is painting and window work.

In May of 1942 FRANK left to serve his country in World War II and was in the Army Engineers for almost four years being released in January of '46. His overseas service was in the Pacific, mainly in New Guinea and the Phillipines.

This Old Timer and his wife BETTY live at 600 Meadow Court, Bradley in a home he built himself in 1956.

FRANK is a water sports enthusiast and his principal hobbies are boating and water skiing.

One of the things that has marred the Golf League so far, besides the weather, is the lack of communication between players that has resulted in excessive waiting by some. Surely when four men know they are playing together on a given day they should be able to agree on a time when all will be there. Too many times we find three of a foursome waiting as much as 45 minutes for the fourth to show.

Let's show a little consideration fellows! And if you are going to be late let someone know.

WOMEN'S GOLF LEAGUE
