PLANT SAFETY COMMITTEE

We don't know who the anonymous poet was who left this on a certain Supervisor's desk this week. We won't even tell who the General is. But we will say that anyone who cannot identify him isn't smart enough to be working here.

THE GENERAL

I know a General from Chebanse,
Who wears a white shirt and black pants.

He sometimes re-acts in a military way,
When he shouts, "Put on them glasses, and
I mean for all day."

And when he dials in the "303",
I pity the poor fellow who has to dial "223".

SORRY

She's an old married woman already and we feel awful about it, but maybe we can blame it on the holidays or something, but we neglected to announce in the last two issues that, that cute little ROSIE STEFANICH, Purchasing, had become the bride of RICHARD DUFOUR on December 21. Please accept our apologies, ROSIE.

Every four months two members of the Plant Safety Committee are relieved of their duties and replaced by new members. Pictured are AL LONERGAN, Warehouse and WEBB KOHL, Supt. of Maintenance, the outgoing members; and DON MATHIS D/25 and JOE GUSTIN, Master Mechanic who have replaced them. Shortly after the picture was taken, WEBB and AL were presented gifts in appreciation of their service to the Committee.

GETTING OLD IS MERELY A MATTER OF FEELING YOUR CORNS MORE THAN YOU DO YOUR OATS.

We extend our sympathy to:

JANET PETERS, Production, on the death of her grandmother.

GENEVIEVE HEBERT, Retiree, on the death of her mother.

STEPHEN FUNK D/35, on the death of his grandmother.

ROBERT GOSELIN D/93, on the death of his grandmother.

OLD TIMER OF THE WEEK

It's always a pleasure to write about an old friend, in fact we coached this guy at Old St. Patrick's High. Please don't ask either of us when; it's almost too long ago. In any case FRANCIS "WEBB" KOHL started here as a laborer in the Steel Yard on February 25, 1941. In December of that year he transferred to Maintenance as an apprentice; was made Supervisor in 1963, and was named Superintendent of Maintenance in 1966.

WEBB has had one of the more interesting Military Careers here. It started out routinely when he enlisted in 1942, and continued that way until after he arrived in Europe as an Armored Infantry replacement. He then violated all principles by volunteering – and for Ranger training at that – and then things started to pop. Taught the refinements by British Commando's, WEBB and his fellow Rangers saw service in every major campaign until the war ended. A blithe spirit in those days he came out a PFC, having been 'busted' three times, and ten years later his Bronze Star arrived with apologies.

WEBB and his wife BONNIE have been married 27 years and have two children; TOM who is career Army, currently in Viet Nam, completing his 8th year of Service, married and father of a boy and a girl; and daughter KIM 9 who attends St. Martin's School and is very much wrapped up in the "White Tornadoes" drill team.

This Old Timer still maintains a great interest in the Ranger organization and faithfully attends the bi-annual conventions of the group. The KOHLS also like to travel and try to vacation in Florida each year. WEBB still admits to liking his beer. All we can say is if more WEBB KOHLS came through the Employment doors each year this would be a better plant.

BOWLING BY BAYLOR

Standings:

	POINTS	WON	LOST
POOL TABLES	48	34	26
MOWERS	44	31½	28½
COMPACTS	43	32	28
FURNITURE	42½	33	27
STORES	40	32	28
SAWS	38½	31	29
BULLDOZERS	38½	28	32
SUBURBANS	38	28	32
DISPATCHING	34	25	35
ROTO SPADERS	33½	25½	34½

Hi Game – MEREDITH VARBONCOUER – 223

Hi Series – MEREDITH VARBONCOUER – 591

Hi Team Game – Pool Tables – 868

Hi Team Series – Pool Tables – 2523

The League leading Pool Tables continue to roll on as they clobbered the Compacts for all 4 points and with it also Hi Series for the week of 2910 pins. ESSINGTON and Company just couldn't get rolling. The Mowers with VERN BLANCHETTE'S 544 series split with the Furniture gang, and moved into 2nd place.

Stores coming on strong the last few weeks won 3 points from a scrappy bunch of Bulls. Stores being led by CAHILL'S 550 and STANISZESKI'S 530 series. Saws winning 3 points from the "Whiz Kids" played it fairly close as they won total pins by 8. MERT VARBONCOUER'S 591 series paced the Saw attack.

We have a very good battle for last place going on and the two teams involved tangled. Results – Roto Spaders 3 points – We Fizz Kids (Dispatching) 1 point, and now ½ point, separates these two "great" power houses.

Is it true that the weather affects bowling pins? If so then we need "All Weather" bowling pins.

He who says, "Tomorrow I will do my best," already has wasted another day.

Small Boy – "What is college bred, pop?"
Pop (with son in college) – "They make college bread, my boy, from the flour of youth and the dough of old age."
