### TONY SEZ

If you are in the market for a new or used car, we have pricing guides at the Credit Union Office that you are more than welcome to use. Don't be misled. Check first before you buy or sell.

We extend sincere sympathy to MAXINE WAGNER D/41 on the death of her brother.

To DAVID ENDRES D/35 on the death of his mother-in-law.

### SAFETY

Injury statistics for the month of January are in and indicate a decided improvement over January of last year. In January of 1968, 28 employees were sent to the doctor; this year the figure was 19. A year ago we had nine lost time injuries for a total of 84 lost time days. This year the number of injuries was cut to two and only two days were lost. All departments were free of lost time injuries except 35 and 79. The frequency rate for January was 10.04 as against 37.83 last year. Severity rate was also 10.04 while last year it was a whopping 353.1. We feel that all of our employees deserve a slap on the back for a job well done. Let's keep it up.

The cost of Safety Prescription glasses furnished to employees (at no charge to them) by the company during 1968, totaled \$3,252.60.

"My dears," gushed the matron at the bridge party, "my resolution this year is never to repeat gossip, so for heaven's sake listen carefully the first time."

Said one fellow to another, "My wife has been talking for two straight days."  
"What is she talking about?"  
"She didn't say."

McCall's  
"My first husband wants to marry me again, but I suspect he's after his money"

# OLD TIMER OF THE WEEK

This weeks Old Timer was really scheduled to appear about four weeks ago, but he suddenly took sick and has been hospitalized since early January. We waited as long as possible and finally went to Room 324 Riverside Hospital to get the HARRY LEHMAN story. The story begins on February 12, 1941, when he was hired and went to work in the grinding room. Prior to this he had done farming and construction work. His career continued as a Maintenance Millwright helper until just two years ago when ill health caused him to transfer to the Guard force which is his current job.

HARRY spent the period from July 1943 to October 1945, in the service of his country. He spent one year in the European Theatre. His was an Army Heavy Maintenance Ordnance Outfit.

This Old Timer, a bachelor, is a confirmed sports fan, mainly baseball and basketball. Strictly a Cub fan he doesn't really dislike the Sox. Broadminded, eh? He also likes to watch TV and sorrowfully says he used to like his beer. Plagued by illness the last five years (it started with a TB attack that caused him to miss almost two years of work) HARRY has spent his last three vacations in Arizona and ultimately hopes to live there permanently.

## PUZZLE

Here is a very famous problem. An old church in Wales is said to have a mysterious inscription carved over the door above the Ten Commandments. A scholar discovered that by adding a single letter... and only that same letter throughout the phrase, it made sense. Can you do it?
