## RETIREE

Today is the last day on the job for that great Old Timer ARCHIE ARSENEAU, who reached his 65th birthday on October 15, and therefore must retire on the last day of the month. ARCHIE who started to work here on January 7, 1929, was seventh from the top of the Plant Seniority list as of this date.

Our latest retiree and his wife HAZEL, plan to leave for Arizona in about a month and, if they like what they see, they may establish permanent residence there. They also may try Florida. In any case the Arseneaus, who have spent their entire lives in the St. Anne area, plan to settle in a warmer climate.

ARCHIE says he has enjoyed every one of the forty-one years he has spent here and feels it has been a great place to work. Our best wishes go with him.

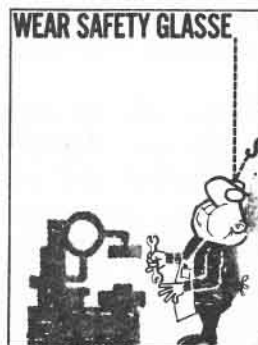

We extend sympathy to ROBERT ADAMS D/35, and GLENN REDENIUS D/25 on the death of their father-in-law.

And to ROGER NICHOLSON D/35 on the death of his grandfather.

## "WISE OWL CLUB"

Another application for membership in the Wise Owl Club has been submitted to the National Society for the Prevention of Blindness in the name of BILL BERNS of D/42. BILL was operating the belt sander on a table top when a foreign object flew up and hit the left lens of his safety glasses with the result shown in the picture. No damage to BILL or his eyes.

There was an old man who had just turned 107 years old. The news media found out about this and called him to find out his secret of longevity. He said he smoked 7 packs of cigarettes a day for most of his life. "Well, how about an interview on television and you can tell your story then," they said. "Fine" said the old man, "what time shall I be there"? "How about 10:00" they said. "10:00 in the morning or 10:00 at night", asked the old man. "10:00 in the morning" said the reporter. "Sorry, but I won't be able to make it at that time" the old man said. "Why not" asked the reporter. "For the simple reason, I don't quit coughing till noon" was the reply.

## OLD TIMER OF THE WEEK

TOM ROE, this week's honored employee, reported for work at David Bradley on December 16, 1942 at the age of eighteen. Despite his youth he had spent several months working at the enormous Boeing Aircraft Plant in Seattle, Washington. His first assignment here was in Steel Stores followed by several years in Receiving. After a transfer to Material control he found his way into Purchasing as an expediter. In May of 1966 he was placed on exempt payroll as a Buyer and is now buyer for A.T.V.'s roto spaders, and tractor attachments.

During World War II TOM had an extremely interesting 2½ years as an Army Engineer. As such he spent 2 years in the China, Burma, India theater of war, with most of the time spent laying pipelines on the famous Burma Road. On the way there and the way back, he traveled around the world at the governments expense, although, at the time, probably didn't enjoy it. His rank at discharge was Corporal.

This dapper Old Timer, who is always a model of what the well dressed man should wear, was born in Essex, raised in Reddick and was quite an athlete in his school days. His great hobby now is fishing, both locally and on trips to Wisconsin, Michigan and Canada. He has enjoyed his job here for twenty-eight years, and his association with the people.

## FOR SALE

## TOM'S TEN PINS by Tom LaFlamme

For the past several weeks most of our bowlers have been complaining about having extra oil on the lanes. Last Monday the bowling alley cut back on the amount of oil normally used and unfortunately most of the bowlers could not make the proper adjustments needed to bowl good. However, TONY STANISZESKI, was one of the few bowlers able to make the needed adjustments early enough to come out on top.

Having his best night of the season so far, TONY bowled games of 226-181-221, for a great 628. TONY was also the ownly bowler in the league Monday night to bowl over 200. Following Tony with good games and series were PETE GERACI 192, WEBB KOHL-192, and DON BAYLOR-194,-552, series, CLARENCE STIIMP- 544, and HAROLD SIEFERT 537.P

The weaker sex is really the stronger sex because of the weakness of the stronger sex for the weaker sex.

The Great Society is bringing back the Garden of Eden. Some women are starting to dress for it!

Then there's the fellow who wants to know what has the greatest life expectancy. That's ridiculously easy. It's a "temporary" tax.
