Craig Carlson	Richard Wisniewski
Eric Bishop	Leslie Simmons
Juan Rodriguez	

### BIRTH

Congratulations to GORDON D/35 and PATRICIA SMITH on the birth of their second child a boy, JEFFERY BRIAN, born October 9.

### FLU SHOTS

**WHAT IS INFLUENZA?** Flu is a fairly brief, severe sickness that is very catching. It is spread from one person to another. It is caused by one of a family of viruses.

When flu strikes, it may damage the lining membrane of the breathing tubes. Then it may spread to the air cells of the lungs. Tissues become swollen and inflamed. They may also crack into little sores, causing the discharge from your nose or throat to get streaked with blood. But these tissues are not damaged permanently. They are repaired after nine to fifteen days--provided no other germ takes over.

**WHO GETS INFLUENZA?** Anyone can get flu--especially when it is wide-spread in a community. And it is likely to be serious for those and for people who are old or women who are pregnant.

**HOW DOES INFLUENZA ATTACK?** Flu seems to come on suddenly. But actually, it takes one to three days to develop. When it comes out in the open, you may notice chills, fever, head-ache, backache, muscular pains, and lack of appetite.

Other common discomforts include a cold in the head, sore throat, dry cough, weakness, pain or burning in the eyes, sensitivity to light, and nausea.

Temperature goes up quickly during the first day--usually to 101 or 102. Then it reaches a peak, probably not higher than 103. Your temperature then may go down quickly only to rise again on the third day. Fever usually lasts about three days. But it may go on for as long as seven.

**HOW CAN INFLUENZA BE PREVENTED?** Vaccination is the only satisfactory way to prevent or control flu. The vaccine now in use contains substances that are effective against other flu viruses as well as those currently causing the trouble.

Flu shots will be given on Wednesday, October 25th (next week) from 1 to 5 PM in the D/35 Canteen Area. All employees are eligible to receive these free of charge.

FOR SALE: Winchester 30-30 rifle \$50.00. Mossberg 308 with scope \$75.00. Call 472-4639.

### OLD TIMER OF THE WEEK

This weeks honored employee PATRICK KRICK, while not Irish, was born on St. Patricks Day back in 1931 and came to work at Bradley on June 4, 1951. Born and raised in Donovan this has been his only full time job. Starting in Assembly, he transferred to Continental Motors during the Korean conflict and then to the Machine Shop where he has been for the last eighteen years. His present job is Gear Hob Operator.

PAT was married in 1953 and his marriage unfortunately ended in divorce two years ago. There are six children; Susan, Donna, Richard, Janice, Brenda and Sondra, whose ages range from eighteen to ten. As if he didn't have enough troubles, he was stricken at about the same time with tuberculosis and forced to spend several months in a sanatorium. Fortunately he has completely recovered and is feeling well.

This young Old Timer loves to play horseshoes and fish and is an avid Cub fan. He was apologetic because he was only able to go to Chicago seven times this summer to see them play. He has enjoyed his twenty-two years here and especially has liked the people in the Machine Shop.

### MARRIAGE

Wedding bells chimed out on October 11 for STANLEY CURRY D/15A and MARY ELLEN LANGE. Good luck to the newly weds.

FOR SALE: Black male poodle. Six months old. Call 932-5992 after 4 P.M.

Our heartfelt sympathy to Retiree EMMETT WALSH on the death of his wife.  
Also to the family of JOHN STARKEY D/35 on his tragic death.  
And to GEORGE MEAD D/15 on the death of his father.

### IT HAPPENS ON MONDAYS

### "BOWLING THAT IS" BY HAROLD SIEFERT

It looks like one of those years when nobody can decide if they like first place or not. No less than four different teams have held that position in the first six weeks. The Truckers led by RON HIRT and PETE GERACI again took over first place after taking four points from Cutting In. The Machine Shop also took care of the Welders, taking all four points and knocking them out of first place. Assembly took three points away from the Forgers and the Stores also took three from the Tool Room.

BUD MENARD had the nights high game and series with his 226-571 with GALE ALBERS right behind with his good 564 series. Other good games and series were STANISZESKI 512, CRAWFORD 511, HIRT 204-533, GERACI 202-531, SHOFF 201-543, GABE KEROUAC 534, and B. MENARD 226-571.

### 2nd. SHIFT NURSE

The long search for a night nurse has ended with the hiring of MRS. JANET RICE R.N. who, after a break-in period on days is now on duty from 3:30 to 12:00 PM each day. MRS. RICE is a graduate of St. Mary's Hospital School of Nursing, and has been at Hillman Memorial for the past eighteen years.

### SHOEMOBILE

During last week's visit of the Safety Shoemobile a total of 142 pairs of safety shoes were purchased by our employees. This is not too bad a showing, but we will never understand why at least 50 percent of our employees do not take advantage of this bargain. The unit will return again in March, but in the meantime shoes can be ordered through the Personnel Dept.
