BOWLING

Due to the fact that the Roper Bradley Bowling League bowls on Monday nights and the last two Mondays were Christmas and New Years Day, our keglers have had a two week layoff with nothing to report. But never fear, HAROLD SIEFERT will be back with his interesting column in next week's issue.

OPERATING A MACHINE

Be dressed right when you work with moving machinery — a short sleeve shirt, no tie, gloves or rings on the hands. If hair is long, wear a cap or other hair covering. Avoid wearing loose or torn clothing. Always wear personal protective equipment prescribed for the job such as safety glasses, safety shoes, and the like. Be sure you know your job and equipment, and never operate a machine without proper au-

thority. Use correct tool speed for the job. Take care of your work area, keeping it neat and orderly. Clean up shavings and oil drippings. Keep tools not being used in a safe place. Use a brush or vacuum to remove chips and turnings. Always shut off the machine for cleaning and adjusting, and when you leave it unattended. Disconnect and lock out power for repairs.

We extend belated but sincere sympathy to WILLARD NELSON, Methods on the death of his mother.

BIRTHS

We congratulate the following proud new parents:

LARRY D/35 and CAROLYN HULL on the birth of their second child, a boy SHANE born December 20.

JOHN D/35 and JUDY SWANSON on the birth of their second child, a boy JOSEPH EDWARD born December 24.

JOSEPH (Dispatching) and RORY CASTONGIA on the birth of their second child, a girl CHRISTINE MARIE born on Christmas Day.

JOHN D/15A and CAROL ZASADA on the birth of their second child, a girl BRANDI LYNN born December 27. CAROL is the daughter of DOROTHY CURRIE, D/70F.

OLD TIMER OF THE WEEK

Her name is LOIS REYNOLDS now, but back on June 9, 1952, when she reported for work at Bradley just three days after graduation from St. Anne High, it was LOIS BARRIBALL. She is the daughter of that popular supervisor FORREST. Hired as a clerk-typist in Repair Parts, she was later classified as a stenographer and now has the title Junior Service Parts Control Clerk. Her entire twenty years of service have been spent in Repair Parts except for two years in the Print Shop. Needless to say, this has been her only full time job.

For the past eleven years LOIS has been Mrs. Jack Reynolds. Dr. Reynolds, a chiropractor has offices at 1136 W. Station St. where she sometimes helps him in his work, being qualified as a Chiropractic Assistant. The couple have no children.

This youthful Old Timer, whose temperament is much like her dad's (and that's a compliment) is all wrapped up in her current hobby, learning to play the electric organ. She also loves to corchet. When Roper Bradley had a golf and bowling league she was an enthusiastic participant. She has enjoyed her work here and says she has had three bosses during that time, ROLLIE SCHLEMMER, LEO WILLIAMSON, and SAM COFFMAN all of whom were great to work for. Ed. Note: What else could she say about SAM since she works for him now!

SAFETY GLASSES

Those employees who dislike wearing safety glasses and feel that they are being put upon by being forced to wear them should be told what happened to JOHN LITTLEHALE recently. JOHN, who works in D/25B, was operating a machine when a piece of metal struck the left lens of his safety glasses with such force that the lens was partly dislodged from the frame. There was no damage to JOHN's eye, but he is convinced he would have lost the eye if he wasn't wearing glasses. There is a lesson here for all to profit from.

Isn't It Funny?

Isn't it Funny—When the other fellow takes a long time to do something, he's slow. But when I take a long time to do something, I'm thorough. When the other fellow doesn't do it, he's too lazy. But when I don't do it, I'm too busy. When the other fellow goes ahead and does something without being told, he's overstepping his bounds. But when I go ahead and do something without being told, that's initiative! When the other fellow states his side of a question strongly, he's bullheaded. But when I state a side of a question strongly, I'm being firm. When the other fellow overlooks a few of the rules of etiquette, he's rude. But when I skip a few of the rules, I'm original. When the other fellow does something that pleases the boss, he's polishing the brass. But when I do something that pleases the boss, that's cooperation. When the other fellow gets ahead, he sure had the lucky breaks. But when I manage to get ahead, Man! Hard work did that! Funny, isn't it—or is it!
