VISITOR

Who's that young lady who is going around from department to department and taking a good look at things? Her name is Donna Riberticchio, would you believe, holds a Master's Degree in Physics and is currently employed by Sears as a Physicist-Engineer Trainee. Donna is here to learn the various phases of production.

Donna is in her last of 2 weeks of which she is to be with us. She commented that the people of Ropers have been very helpful by sharing their knowledge of production with her.

FIRST AID COURSE

The Red Cross Chapter House wants to start evening courses in First Aid. Anyone interested in joining please contact Marge in First Aid.

The only sure way to prevent fires caused by cigarettes is not to light the cigarette in the first place. In addition to fire prevention, this method has the benefit of substantially lowering your chance of premature death from a whole host of diseases such as; lung cancer, heart disease, emphysema and chronic bronchitis. Why not kick the habit.

SYMPATHY

Goes to RICHARD FRETCHETTE D/25 on the death of his mother.

HOW TO SOLVE WORD FIND PUZZLES

All the words listed for each puzzle can be found in the letter diagram.

The words read forward, backward, up, down, and diagonally. Words overlap, and some letters are used more than once.

Circle each word you find in the diagram, and cross it off the word list.

For an extra challenge, cover the word list, or fold the page back, and see how many of the words you can find without using the list!

WORD FIND 1

Chess King

Check	King	Rook	Pieces
Pawn	Queen	Castle	Capture
Chess	Bishop	Checkmate	Stalemate
Board	Knight		

SOLUTION NEXT WEEK

IT HAPPENS ON MONDAYS

"Bowling That Is"

by Harold Siefert

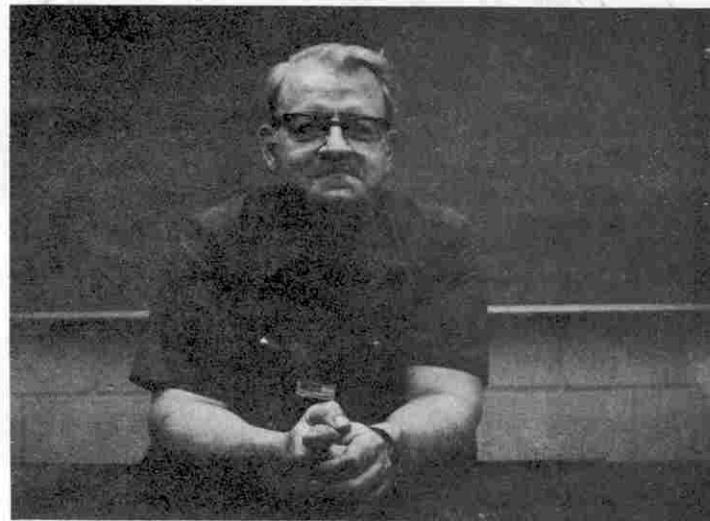

Monday nite could just as well have been a preview of the roll off on the last nite, as the MACHINE SHOP team bowled against the first half winning TRUCKERS. The TRUCKERS came away the losers on this particular nite however as the "hot" MACHINE SHOP boys continue to roll right along. They did such a good job of it that the TRUCKERS found themselves dropped down to fourth place. There were four 200 games rolled between the two teams, two by each team, also four 500 series, again two by each team. The MACHINE SHOP boys had the biggest ones though and used them to grab three points from the TRUCKERS. The big guns for MACHINE SHOP were JOHN BELL with 213-526 and "little" ED BAKER with 224-551. OFFICE took three from STORES, TOOL ROOM also took three from ASSEMBLY, WELDERS did likewise to the FORGERS, and what do you know, CUTTING-IN did the same to the SUBURBANS making it all a three to one nite.

The 224 and 551 rolled by "little" ED BAKER were the high game and series for the nite which makes him the star of this Monday nite. Other good games and series were WILL ESSINGTON 508, RON HIRT 214, LOU CONOVER 214-543, JOHN BELL 213-526, PETE GERACI 218-531, GALE ALBERS 542, CLARENCE STUMP 200-524, GARY MENARD 207, BOB CRAWFORD 505, NEAL BARSTOW 500, and DON CHRISTER 522.

This seemed to be the nite for picking up the splits because everybody (almost) got into the act. The 5-10 seemed to be the most popular one because it was converted four times. The sharp eyed boys who picked it up were AMBROSE HACKLEY, DAVE SHELL, NEAL BARSTOW, and last but not least was DAVE SYNDER. The 4-7-10 was made by CLARENCE STUMP, while AL GUENETTE and SAM RAIMONDO both took care of the 5-8-10.

The individual leaders with only nine more nites to go are BOB CRAWFORD and CLARENCE STUMP who are tied for high game actual 239, TONY STANISZESKI who has high game with handicap 281, DON CHRISTER high series actual 602, LEROY MATHEWS high series with handicap 686, and BUD MENARD high average 174. Those are the scores to "shoot" for boys, remember only nine more weeks to beat them.

For 20 years Prof. Edwin R. Keedy of the University of Pennsylvania's Law School used to start his first class by putting two figures on the blackboard: 4 adn 2. "What's the solution?" he would ask. A student would call out, "six." Another would say, "two" but Keedy would pass them by. Several men would shout the final possibility, "eight" and the teacher would shake his head. Finally Keedy would point out their collective error. "All of you failed to ask the key question, *what is the problem?* Gentlemen, unless you know what the problem is, you cannot possibly find the answer." Dr. Keedy's classroom gambit was deadly serious. He knew that in law, as in everyday life, too much time is spent trying to solve the wrong problem - like polishing brass on a sinking ship. - Murray Teigh Bloom

OLD TIMER OF THE WEEK

This week's Old Timer is EVERETT RIECK who started his employment at Bradley on April 6, 1935, in the grinding room where he spent 2½ years then 6 months in the Wood Shop making incubators. EVERETT then transferred in 1938 to Tool and Die where he remained until 1959. While he was in Tool and Die, he was called to serve his country for 2 years as a Seabee on Guam. In 1961 EVERETT went to Experimental as a Model Maker and is still there.

EVERETT is an accomplished musician of an Accordion. He formerly played in bands and entertained at Plant Xmas Parties. He still is known to knock out a tune or two.

EVERETT and his wife Bernice have one child, JoAnne who is married to Robert Malley, a student at Illinois University in Carbondale.

CONGRATULATIONS

To MIKE WHITAKER D/35 and wife Nancy on their first child, a girl Michelle Lynn born February 24.
