## RETIREE

Retirement is in the near future for a notable office employee, MAXINE BOUCHARD, who is a person who likes to be able to do "want tos" rather than "have tos." So she is playing it by ear and retiring the later part of July. MAXINE has been with Bradley for 35 years. She started here on January 11, 1939 as a Material Control Clerk. Her progress then led her to Production Control and Cost Accounting and in 1943 MAXINE became Secretary to the Works Manager and Production Superintendents. In 1960 position titles changed but MAXINE remained in Production Services Division better known today as Manufacturing Services.

MAXINE has no future working plans but is putting golf as her highest priority of passing her time. She belongs to the Elks Country Club where this priority can be taken advantage of.

GOOD LUCK!

"Ahhh . . . I see the gentleman has made his selection."

### TRACTOR PULLS

Posted on the bulletin boards throughout the plant is a listing of Garden Tractor pulls in which Roper will be represented. Perhaps, it would be of interest to the employees to see how Roper-Sears tractors stack up against competitive units. In any case, George Sirois of the local Sears store had provided us with this list and advised us that he will be participating in these pulls with his Roper tractor.

We will advise you of results of the various garden tractor pulls as they become available to us.

I am sure many who will attend these events will be very surprised at the capabilities of these units.
