## RETIREE

May 27th, was RUTH ARRINGTON'S last work day and she will be retiring effective June 1st. RUTH began her employment at Bradley on Oct. 30, 1944 in the Material Control Department, and spent her thirty-two and one half years in Material Control, Receiving and Purchasing.

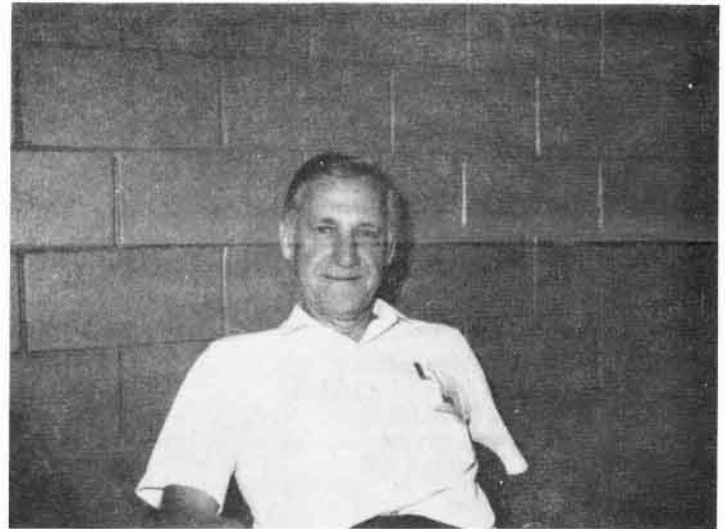

After talking with RUTH about her past, I felt as if the previous editor should be writing this article. RUTH has lived in the Kankakee area her entire life except for about one year during World War II, when she lived in Gary, Indiana. She graduated from St. Pat's High and St. Viators and after college entered the teaching profession for about eight years.

RUTH likes sports and for many years enjoyed playing golf and bowling. Her favorite program is football and when I asked her who her favorite announcer was, she stated she turns down the volume so that she does not have to listen to them. She says she can then concentrate better on the game. She began her interest in sports back in the days when PETE LAFFEY was bouncing the ball on the courts of St. Viators.

RUTH is looking forward toward retirement and has plans to become better acquainted with her grand nephews and grand nieces. She has five of each. She values the friendships she has made working here and states she will miss the fine people.

## BIRTH

Congratulations are in order for MIKE D/67 and KATHERINE FAFORD on the birth of their second child, a girl born May 21, 1977.

## RETIREE

WILLIAM (Bill) F. LUSTIK has decided after forty-two years to retire, effective June 1st. BILL began his Bradley career on June 17, 1935 as a Apprentice Tool Designer. He took a break to enter World War II from 1941 to 1945. After returning from the War he was reinstated as a Tool & Die Maker 1st Class. In 1952 BILL was promoted to Exempt status and since remained in the position from which he retired.

BILL enjoyed working here and was a hard individual to interview since JERRY POWER was in the same room. It seems they keep bringing up old times, talked about how BILL started at Turks furniture and made it difficult to take notes. I did hear that he was released from Turk's because there were just too many LUSTIK'S.

BILL is looking forward to retirement and plans to spend the winters in California and the remainder of the time in Illinois. He and his wife ELVIRA have three children and three GREAT grandchildren. Son PAUL works here as a Tool & Die Maker.

BILL does have plans to play a little golf after retirement.

A grizzled old quarry worker went to a dentist for the first time. "How did it go?" asked his pal, when he returned to the quarry. "He turned the air drill on me," the late patient disgustedly reported, "but I escaped before he could tamp the dynamite!"
