Statistics continue to indicate that marriage adds years to life. In the 35-44 age group, for example, married men's death rate is 3.0 per 1,000. For those who are unmarried, it is 7.3 per 1,000. For married women, the mortality rate is 2.0; for those single, it is 3.9.

Singles are therefore advised to consider marriage or at least stop reading statistics.

BACK TROUBLE

The office workers were discussing weekend sports activities. "I can't indulge in water skiing, mountain climbing, snorkeling or scuba diving because of my back," said one.

"What's wrong with your back?" asked a co-worker.

"It has a big yellow streak."

OLD TIMER OF THE WEEK

This week's honored employee, LOREN DUMAIS, came to work at Bradley on November 25, 1952, but like so many others he would have more service time had he stayed when first employed here. He first came in 1944, but resigned in 1947.

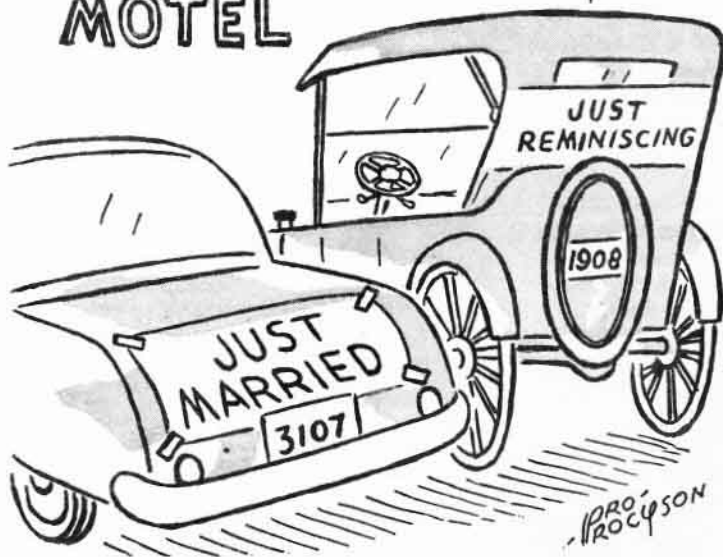

In 1952 LOREN returned as a plant employee. Prior to his present assignment he worked in practically every department as a bench and floor inspector. In 1965 he was transferred to the office payroll as a Metallurgist where he remains today.

LOREN and his wife, JoAnn, have been married 15 years and have two children: 12-year old Brent and 10-year old Lynette, both students at St. Anne Grade School.

This talkative OLD TIMER enjoys reminiscing about his past as well as the technological advances he has seen in his position at Bradley. He is amazed at the improvements in the equipment which he uses. He feels that technology has doubled in the past 5 years.

As for hobbies, he spends a lot of his free time centered around the family and being what he calls, "a Sundown Farmer." He enjoys tinkering with mechanical devices such as model railroads and motorcycles.

SIMPLE SOLUTION

A young girl had been away at school for several weeks when her mother got the following letter: "I need \$150 for new clothes. I've had six dates with the same young man and have worn all the dresses I brought with me. I must have a new dress for our date next weekend." The mother replied: "Get a new boyfriend."
